

Spa Phase 2 Protocols for Facility Use

In addition to our already rigorous state board cleaning and sanitation standards we are also complying with all state guidelines.

Jacuzzis

- Jacuzzis are able to be open in Phase 2 however there are restrictions:
 - Time to soak must be scheduled - we will allow either 30 minutes prior to or following your appointment.
 - This is first come first serve, with limited Jacuzzis we aren't able to guarantee you will get your preferred time slot. Highly recommended to reserve at time of booking.
 - Per OHA there can only be one family unit/party in a Jacuzzi at a time.
- Jacuzzi areas will be sanitized in-between each scheduled time.

Locker Areas

- If you have a scheduled Jacuzzi time you will be assigned a sanitized locker, a clean robe, towel and sandals.
 - Lockers are sanitized between every client.
- You will be able to shower during your scheduled time.
 - Showers are sanitized frequently.
- Restrooms are available to all clients.
 - Restrooms and sink areas are sanitized frequently.
- Masks are required to be worn everywhere except for while in the Jacuzzis and showers.

Steam room and Sauna

- These are NOT allowed to be open in Phase 2.

Hearth Room

- Hearth Room access is available for a limited amount of time due to social distancing and limited seating.
 - You are allowed to be in the Hearth Room 15 minutes before and or after your service.
 - Chairs are set at 6 feet or do not have a scheduled time for a Jacuzzi slot then your therapist will pick you up from the lobby. Otherwise they will pick you in the Hearth Room.

Water Service

- Due to restrictions we are unable to give out water after your service or have water stations set out.
- Bottled drinks are available for purchase at the front desk. Or you are welcome to bring your own water bottle.
